Promoting Drip Irrigation and Climate Resilience in Guatemala

MásRiego

Meagan Terry
Program Manager
Horticulture Innovation Lab
What is MásRiego?
Project Partners:
- The Barbara Ford Peacebuilding Center (CPBF)
- Kansas State University
- Zamorano Pan-American Agricultural School
- NC A&T University
- Universidad Rafael Landivar

Area of Influence:
- Quetzaltenango
- Quiche
- Totonicapan
Five Lessons in Adoption and Success of Drip Irrigation for Smallholder Farmers
1) Local knowledge is key
2) One size does not fit all
3) Access to water defines participation
4) Youth and women have to be engaged
5) Credit provision needs to be a win-win
MásRiego success will be defined by the ability of farmers to produce more with less.
Thank You! Gracias!
