

World Café:

Purpose: This breakout session is meant to offer a space for individual feedback in challenges and opportunities within each category to be included in conference proceedings and a white paper. And further, to identify possible partnerships moving forward.

Logistics: Participants will be directed to a separate table at registration to choose their topic on Day 1. Registration attendants will give them a topic identifier (stamp) so that they have a reference to find their table on Day 2, during the session. The break-outs should last 25 minutes with 25 minutes of share out on identified points of collaboration between table participants.

Topics!

Water management
Gender
Nutrition
Youth
Postharvest opportunities
Small-scale technology development (and scaling)
Innovative funding mechanisms
LMIC university capacity development
Enabling environments (policy and regulation)
Market-driven value chain approaches
Urban horticulture
Horticulture as a climate change mitigation strategy
