# Have we fulfilled the hopes of the Global Horticulture Assessment?

- ✓ } *Work closely with AVRDC and its CGIAR partners in the newly developed Global Horticulture Initiative*
- ✓ } *Center for knowledge generation, capacity building, and integration*
- ✓ } *Partner with individual, regional, and global consortia of Missions and private and public partners to design and implement projects addressing the core challenges*

# Have we fulfilled the hopes of the Global Horticulture Assessment?

## } Example projects

- ✓ Development of phytosanitary and postharvest protocols for the small producer
- ? Development of small-scale agrochemical and seed supply micro-enterprises
- ✓ Establishment of a Global Horticulture Knowledge Bank and Extension System
